

SHANKARA GOUDA

Ambitious and detail-oriented MCA Student | Software Developer | AI & Data Analytics Enthusiast

☎ +9148209559 ✉ oxyshankar@gmail.com 🌐 GitHub 🔗 LinkedIn 📍 Bangalore, India

PROFESSIONAL SUMMARY

Motivated MCA student and Computer Science graduate with a strong foundation in Software Development, Artificial Intelligence, Data Analytics, and Computer Science fundamentals. Passionate about building intelligent applications using Python, Machine Learning, SQL, and modern web technologies. Experienced in developing academic projects involving fraud detection, data analysis, and AI-driven solutions. Skilled in problem-solving, algorithm design, and database management with a continuous learning mindset toward emerging AI technologies. Seeking an opportunity to contribute technical expertise and innovative thinking in a dynamic IT environment.

EDUCATIONS

Dayananda Sagar Technology and Management | Bangalore 2025-07 - 2027-07
Master's in Computer Applications (MCA)

- PGCET Rank: 2858

Bangalore University | Bangalore 2022-07 - 2025-07
Bachelor of Science (Computer Science & Physics) CGPA : 8.2/10

PROJECTS

Developed a desktop-based Chess Game using Java and Java Swing. | Dec 2026

- Developed a desktop-based Chess Game with **100% implementation of core chess rules**, including checkmate, castling, and pawn promotion.
- Built an interactive Java Swing GUI for **64-square board visualization and real-time gameplay**.
- Applied OOP concepts to create a modular application with **10+ reusable classes**.

Technologies / Tools Used : java, javaswing, Tailwind CSS, MongoDB

Online Payment Fraud Detection using Machine Learning May 2025

- Developed** a **machine learning model** to identify fraudulent online transactions, achieving **98% accuracy**.
- Executed** data preprocessing, feature engineering, and model training with **supervised learning techniques**.
- Evaluated** model performance using **accuracy, precision, and recall metrics**.

Technologies / Tools Used : Python, Django, SQL, Scikit-learn, Jupyter Notebook

Developed a CPU Scheduling Simulator using C. Dec 2026

- Developed** a simulator featuring **4 CPU scheduling algorithms**: FCFS, SJF, Priority, and Round Robin.
- Automated** calculations for **waiting time** and **turnaround time**, enhancing performance analysis.
- Created** a menu-driven application to compare scheduling efficiency across multiple processes.

Technologies / Tools Used : c, os, dsa, FCFS, SJF, Priority Scheduling, Round Robin

SKILLS

Databases :	SQL, MySQL, RDBMS, NoSQL, MongoDB, PostgreSQL
Frameworks & Libraries :	Django, REST APIs, Next.js, React, Flask, Spring Boot, Node.js
Languages :	English, Kannada, Telugu, Hindi
Programming Languages :	Python, C++, Java, C, JavaScript, PHP, SQL
Soft Skills :	Teamwork, Critical Thinking, Problem Solving, Communication, Quick Learning, Leadership, Attention to Detail, Time Management
Tools & Platforms :	Jupyter Notebook, Git/GitHub, Docker, Git, vscode, GitHub

CERTIFICATIONS

Data Analytics Certification | NASSCOM Foundation, Skill India & HDFC Bank Parivartan | Oct 2025

- Successfully completed training and assessment in Data Analytics under the Skilling and Employability Program for Youth.
- Gained practical knowledge in Data Analysis, Excel, SQL, Data Visualization, and Business Analytics

Google Cloud Agent AI Day – Certificate of Participation | Google Cloud & Hack2Skill | Nov 2025

- Participated in Agent AI Day and submitted an innovative AI-based solution for the Agriculture and Farming sector.
- Explored intelligent agents, AI-driven decision-making, and cloud-based technologies for solving real-world challenges.

Spring Boot Certification | Infosys Springboard | May 2026

- Completed training on Spring Boot framework for developing enterprise-grade Java applications.
- Gained hands-on experience in building RESTful APIs, dependency injection, Spring MVC, and database integration.
- Worked with Java, Spring Boot, MySQL, Maven, and Git for backend application development.

Project Competition / Sustainability Solutions Pitch Event | DSATM Centre of Clean Technology | Apr 2026

- Participated in the Sustainability Solutions Pitch Event organized by the Centre of Clean Technology, DSATM, Bengaluru.
- Presented innovative ideas focused on sustainable development and real-world environmental challenges.
- Collaborated with peers to develop technology-driven solutions aligned with the United Nations Sustainable Development Goals (SDGs).

Certificate in Data Analytics, Artificial Intelligence – Dell Technologies & Learning Links Foundation Jun 2025

- Successfully completed 20 hours of training in Data Analytics, Artificial Intelligence, Communication Skills, and Job Readiness.
- Gained foundational knowledge in data-driven decision making, AI concepts, professional communication, and workplace readiness.
- Enhanced analytical, problem-solving, and employability skills through practical learning sessions.
